

Back to our roots — VALIC

Helping Americans plan for and enjoy a secure retirement

SAVING : INVESTING : PLANNING

We are pleased to announce our decision to rebrand to a familiar name — VALIC. We believe this decision is timely as AIG moves to position its businesses, including ours, as more independently run companies. We also believe the brand change will be a welcome event for our group and individual clients as we return to our roots and a familiar name that has represented more than half a century of helping people plan for and enjoy a secure retirement.

We are financially strong and continue our commitment to the same unchanging standard of one-on-one service we have delivered for more than half a century. Our ratings are competitive with those of our industry peers.

The facts about VALIC safety and stability:

- > VALIC is individually responsible for its liabilities associated with its products, and not for any obligation of AIG. Our company exceeds the capital reserves required by the Texas Department of Insurance.
- > Clients can be assured that all contracts remain valid and are protected. There will be no gaps in service or insurance coverage as we separate from the parent company.

Still the 1

For more than 50 years, Americans have turned to us for their retirement needs.

And we are still the right choice:

- > Personalized service with face-to-face support for plan administrators and plan participants
- > Online account management, plus powerful calculators and tutorials at VALIC.com
- > Independent investment advice from Ibbotson Associates, Inc. for participants
- > One-on-one help with enrollment and education of participants through seminars and benefit fairs, as well as online tools

Our retirement plans offer a flexible combination of services, technology and support, allowing us to easily customize plans for groups both large and small. Today we serve more than 25,000 groups, and more than 2 million customers.

Our history of leadership:

- > Founded in 1955 as The Variable Annuity Life Insurance Company of America, Inc., we enrolled the 1st public school district into a 403(b) retirement savings program in 1964.
- > We were the 1st to offer fixed and variable annuities with public funds in the 403(b) marketplace.
- > In 2001, we pioneered the use of independent third-party investment advice and automated portfolio management services under the SunAmerica advisory opinion from the U.S. Department of Labor.
- > We continue to be the #1 provider of retirement plans to the K-12 market and today we are a market leader in the higher education and health care markets.
